

# Fuel for Learning Partnership

*a PTA Council Standing Committee*

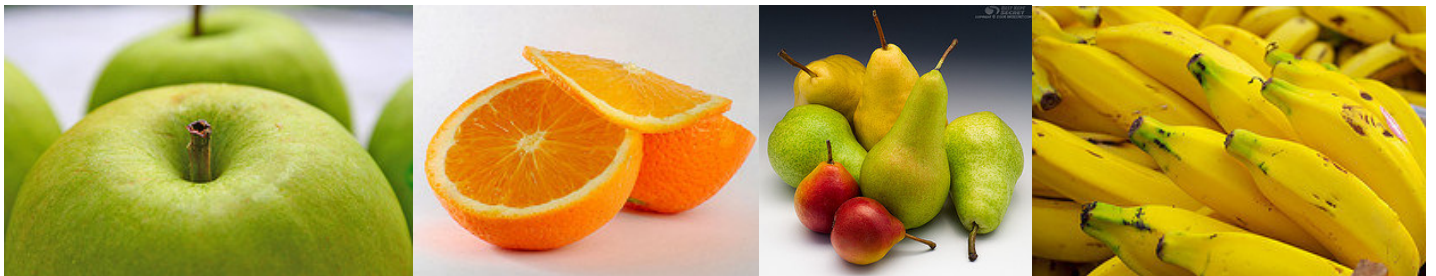

*Children who are properly fueled for learning are better students.*

## Mission

The mission of the Fuel for Learning Partnership (FFLP) is to encourage parents, students, teachers, food service staff and Board of Education members to jointly pursue the common goal of serving safe, high quality, nutritionally dense meals to the students of Fairfield. The measurement of success is a high participation rate at all grade levels that is supported by a unified message in the classroom and the lunchroom.
